

Verastem to Present at the 29th Annual ROTH Conference

March 7, 2017

BOSTON--(BUSINESS WIRE)--Mar. 7, 2017-- Verastem, Inc. (NASDAQ: VSTM), focused on discovering and developing drugs to treat cancer, today announced that the company will present at the 29th Annual ROTH Conference on Monday, March 13th at 4:00 p.m. PT at the Ritz Carlton in Dana Point, CA.

A live audio webcast of the presentation will be available on the company's website at www.verastem.com. An archived presentation will be available for 90 days.

About Verastem, Inc.

Verastem, Inc. (NASDAQ:VSTM) is a biopharmaceutical company focused on discovering and developing drugs to improve outcomes for patients with cancer. Verastem is currently developing duvelisib, a dual inhibitor of phosphoinositide-3-kinase (PI3K)-delta and PI3K-gamma, which has successfully met its primary endpoint in a Phase 2 study and is currently being evaluated in a Phase 3 clinical trial in patients with chronic lymphocytic leukemia (CLL). Other clinical product candidates include focal adhesion kinase (FAK) inhibitors defactinib and VS-4718, and dual PI3K/mTOR inhibitor VS-5584. Defactinib is currently being evaluated in three separate clinical collaborations in combination with immunotherapeutic agents for the treatment of several different cancer types, including pancreatic, ovarian and non-small cell lung cancer, and mesothelioma. Verastem's product candidates seek to treat cancer by modulating the local tumor microenvironment, enhancing anti-tumor immunity and reducing cancer stem cells.
